## L'OCCITANE, the true story

---

The story of L'OCCITANE began in 1976, in the hills of Haute-Provence, a region of southern France that lies between the Alps and the Mediterranean. Founder Olivier Baussan took the secrets from the fields of Provence together with the traditions and techniques of this unspoiled land for his beauty products. Even today, all L'Occitane products are developed and produced in the small Provençal town of Manosque.

L'OCCITANE has drawn inspiration from *Mediterranean art de vivre* and the timeless heritage of Provence to create natural beauty products devoted to wellbeing and the pleasure of taking care of oneself. Nurtured by encounters and journeys, the brand has grown and developed. Currently, L'Occitane has more than 1000 stores worldwide and Spa L'Occitane is evolving around Asia, Europe and South America.
